

Find your ancestry and privacy regulations

The Kortewegs who maintain this site succeeded in mapping filiations of all Kortewegs and Shortways. We have an almost complete picture of the details of our ancestry as from the seventeenth century until around the second world war and frequently even until the current day. It does not cost therefore much effort to each Korteweg/Shortway to find his/her ancestry in male line. Formerly we published the complete pedigrees on internet. That is no longer allowed, because of the privacy legislation. The pedigrees which you can find now on this site, contain for this reason only deceased persons. If you know the personal data of your deceased grandparents, you possibly can find your ancestry in these pedigrees. If not, mail us. Then we can provide you most likely with a pedigree up to into the 17th century!

- Kortewegs or Shortways who have died or who were born before 1912 born are mentioned.
- In case we don't know if their partners are dead or born before 1912, the partner and the children are omitted.
- If all children are omitted, then we mention the number of children, not the sex.

Meanwhile we remain, however, interested in the Kortewegs and Shortways of the current generations, even though we cannot publish the information. You can make us therefore happy with information concerning births, marriages or deaths in your family.

Please be aware that all dates are shortened the Dutch way. 3.6.1825 means June 3rd 1825; not the 6th of March.
